

About C.R.I.

C.R.I. PUMPS

www.cripumps.com

The beginning of C.R.I, back in 1961, was a resolute attempt to produce a few irrigation equipments using the limited facility of an in-house foundry. Now, after four eventful decades, the founder's dream has become a reality, a multi-winged organization that produces different varieties of pumps and motors that are engineered to perfection. What made the legendary growth possible is the flawlessly maintained value system of the company. The name C.R.I. itself encapsulates the company's ethos: "Commitment, Reliability, Innovation" and it has now become a household name associated with water lifting pumps – be it for agriculture, industry, domestic, mining or civil applications.

45 years of engineering expertise

ISO 9001 accreditation

Futuristic R&D wing employing top-of-the line hi-tech tools and software

100,000 Sq. Meter of covered area equipped with the latest machinery

Production capacity exceeding 750,000 pumps and motors per annum

Fully mechanized and automated Foundry with state-of-the-art technology

More than 830 varieties of water lifting pumps & Motors to choose from

Wide range of Submersible pumps and motors in 3", 4", 6" & 8" available with different materials of construction

Products with international quality certification like CE, UR & UL

Winner of many prestigious awards for quality and excellence

A Government of India recognized Star Export House

The Company always keeps pace with the changing scenario and seldom fails in coming up with outstanding solutions every time. The unerring teamwork, which goes into the manufacture of every product, has brought in impeccable recognition for the company as well as its products – worldwide.

Products currently offered:

- | | |
|----------------------------------------------------------------------|----------------------------------------------|
| ❑ Stainless Steel deep well Submersible pumps (S.S 304 / 316 grades) | ❑ Hot water circulatory pumps |
| ❑ Deep well submersible pumps Of other M.O.C. | ❑ Valves |
| ❑ Deep well submersible Motors | ❑ PVC / Rubber insulated Flat / Round cables |
| ❑ Shallow well submersible pumps | ❑ Electronic Water Level Monitor |
| ❑ End suction centrifugal pumps | ❑ Float switches |
| ❑ Self-priming pumps | ❑ Control Panels |
| ❑ AC Induction Electric Motors | ❑ Hand Pumps |
| ❑ Peripheral Pumps | ❑ Cable Splicing Kit |
| ❑ Jet Centrifugal pumps | ❑ Bore-well Base Plates |
| ❑ Horizontal & Vertical Multistage Centrifugal pumps | ❑ Pressure controllers |
| | ❑ Pressure tanks |
